

ECONSULT MEDICAID FEE SCHEDULE

January 1, 2024

A telephone/internet/electronic health record interprofessional consultation is defined in the 2023 CPT Manual as consultations in which “a patient’s treating (e.g., attending or primary) physician or other qualified health care professional (QHP) requests the opinion and/or treatment advice of a physician or other QHP specific specialty expertise (the consultant) to assist in the diagnosis and/or management of the patient’s problem without patient face-to-face contact with the consultant.”³ Interprofessional consultants are often called “eConsult” and for the purposes of this document, the term “eConsult” will be used.

Below is information related to eConsult codes as reimbursed by state Medicaid fee-for-service programs. On January 1, 2024, each state’s physician fee schedule was examined for the existence of the code. If a separate fee schedule existed for federally qualified health centers (FQHCs) it too was examined for these codes. Please note that fee schedules may be updated throughout the year depending on the state so the information below is for only what was listed publicly by the Medicaid program on January 1, 2024.

99446	Interprofessional telephone/internet/electronic health assessment and management service provided by a consultative physician or other qualified health care professional, including a verbal and written report to the patient’s treating/requesting physician or other qualified health care professional; 5-10 minutes of medical consultative discussion and review
99447	11-20 minutes of medical consultative discussion and review
99448	21-30 minutes of medical consultative discussion and review
99449	31 minutes or more of medical consultative discussion and review
99451	Interprofessional telephone/Internet/electronic health assessment and management service provided by a consultative physician or other qualified health care professional, including a written report to the patient’s treating/requesting physician or other qualified health care professional, 5 minutes of medical consultative discussion and review
99452	Interprofessional telephone/Internet/electronic health record referral service(s) provided by a treating/ requesting physician or other qualified health care professional, 30 minutes
